

Scalability & Future Plan

Date	06 July 2026
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Supports limited concurrent users	May slow down with many users	High
2	Stores history in JSON files	Difficult to manage large data	Medium
3	Basic authentication and security	Less secure for production	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports a small number of users	Deploy on cloud servers
2	Data Storage	Uses JSON files	Use PostgreSQL or MongoDB
3	Performance	Runs on a local machine	Add caching and optimization
4	Security	Basic security	Add login and authentication

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1	User authentication system	1 month	Secure access
Phase 2	Multi-language support	2 months	More Users
Phase 3	Cloud deployment	3 months	Better scalability
Phase 4	AI model improvement	4 months	Better conversation suggestions
