| Team ID       |                                   |
| Project Name  | Personalized Networking Assistant |
| Maximum Marks | 3 Marks                           |

### Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

### Example:

| Problem Statement (PS) | I am (Customer)                       | I'm trying to                                     | But                                     | Because                                                 | Which makes me feel                               |
|------------------------|---------------------------------------|---------------------------------------------------|-----------------------------------------|---------------------------------------------------------|---------------------------------------------------|
| PS-1                   | A student attending networking events | Start meaningful conversations with professionals | I don't know how to begin conversations | I lack confidence and knowledge about networking topics | More confident and prepared for networking events |
